

Advanced Communication

Advanced Communication is a company - based in Barbados - providing integrated communication solutions in prison settings across the Caribbean. We have been operating in Barbados for over 4 years and, more recently, have installed systems in St. Vincent and St Kitts, with others planned.

We pride ourselves on being a company that has at its core prison professionals, people who have themselves worked in prison previously with an understanding of the prison environment.

Our philosophy is clear. We design, install and maintain communication and media services at no cost to the Prison Service and prisoners pay for calls at rates similar to payphone use in the community.

We value partnership. We will work closely with you in designing a system that meets your specific needs. Each system we install is unique to your setting and your circumstances.

If you need more information on how we can explore your needs please contact

tomer@advanced-com.com

www.advanced-com.com.

The System

- Fully Automated
- Fully Customisable
- Potential Staff Savings and/or Redeployment
- Easily adapted to Classification, Security Levels and Regime
